HIS TESTIMONY CONTINUED. Resumption of the Cross-Examination

Gov. Stennenberg continued his testimony at the Coeur d'Alene investigation yesterday, Representatives Cox of Tennesrecting the cross-examination. The governor stated that he knew nothing of the selection of an alleged convict as one of the state deputies, nor of alleged depredations by this deputy, including the forcing of doors of dwellings, the breaking of windows, etc. He would not have allowed such conduct, he said, if he had known of it.

Mr. Lentz's cross-examination brought

Mr. Lentz's cross-examination brought out that the governor was thirty-eight years old and had been elected twice as governor in 1836 and 1838. He had visited the Coeur d'Alenes during his present canvass and had held public meetings. Subsequently he recognized men in the "bull pen" as among those he had met in his campaigns. In 1836 he received the bulk of the vote of Shoshone county, and in 1838 he lost this vote.

Governor Steunenberg interposed a protest when Mr. Lentz asked him if he had not exercised "absolute and arbitrary pow-

"I decline to answer such a question," said Gov. Steunenberg. "It is an insult."
This precipitated a lively controversy among the members. Some wanted the question struck out; others wanted it to stand. To criticisms on the question, Mr. Lentz replied that he "needed no guardian" and Mr. Capren responded that he dian," and Mr. Capron responded that he would dislike to become Mr. Lentz's guar-

Death of Cardinal Mazzella.

Information has been received at Georgetown University of the death of Cardinal Camillus Mazzella, prefect of the congregation of rites, who died yesterday at Rome. Cardinal Mazzella was connected with Georgetown University during th period of the civil war, and with a number of other Jesuit colleges in the United States, remaining in this country until 1889 Dr. Bovee said that difference in the charge was due to the different methods then he went to Rome, where Pope Lec charge was due to the different methods of treatment followed by different physicians. The medical staff of the hospital usually followed but one course of treatment, while other physicians had their ewn special treatment. Mr. Warner Stutler, the superintendent of the street cleaning department, has informed the Commissioners that the condition of the street is due to the earth which drops from the carts and wagons of persons excavating in the vicinity, who fall to put the street in proper condition after hauling over it.
